The CTK Group's Evidence-Based Interview and Interrogation Course (24 hours) is a comprehensive, evidenced-based gameplan of interview and interrogation that is designed to create a slight edge in every aspect of educating information from victims, witnesses, and suspects. Our goal is to increase patrol officers and investigators confidence in the three core tenets of our interview and interrogation game plan: legal, interviewing, and interrogation. This course clearly defines the legal landscape of interrogation beyond any training officers have previously received, creates critical advantages by developing cognitive interviewing skills, and perfects the art of persuasion skills within interrogation. Our unique baseball diamond concept of interview and interrogation gives the student an actionable game plan that is legally-sound. This course incorporates a video-based quiz, active role playing and practice with the instructors and students, and current criminal interrogation videos to supplement the 218 page interactive manual that each student receives. Make no mistake... this is no course for recruits. Twenty-year veterans have taken this course and been amazed at the information that they were never taught in their careers.
