**Basic Tac Med Instructor Training Program**

The Basic Tactical Medical Instructor is a highly intense training program and consists of lecture, labs and skill practice. The LEO will gain knowledge and skills necessary to mitigate the loss of their life or the life of another while in a dynamic environment. The skills will address treating life threatening injuries in an austere environment with limited equipment, lack of medically trained personnel and prolonged time to evacuation. It is a systematic approach to dealing with casualties in a tactical environment, strongly influenced by the model used by the DOD called Tactical Combat Casualty Care (TCCC). As the name implies, TCCC incorporates tactical problem solving into any situation in which casualties are incurred from an armed, hostile opponent.

Location; NE LE Training Center 3600 N. Academy Rd Grand Island, NE 68801  
Classroom J

**Tac Med for the First Responder**

The Tactical Medical for First Responders program is designed to define a Medical Threat Assessment, to include a medical plan for a tactical operation. Students will learn how to apply techniques to control life threatening bleeding during Care under Fire in a (HOT ZONE). Additionally, they will perform techniques to treat life threatening and non-life threatening injuries during Tactical Field Care in a (WARM ZONE). During the program students will demonstrate lifting, moving and extricating victims from a tactical or hostile environment during Tactical Evacuation Care.

FLETC Application for Student Training (FAST)

**There is NO COST for this class.**  
Applicant must be a state, local, or Tribal officer or agent. For full list of FLETC training being offered:
