Advanced Combative Carbine Course was designed after two decades of working as a Senior Patrol Rifle Instructor of the Largest Law Enforcement Firearms and Tactics Program in the State of Nebraska.

This program will take you from ZERO to SIXTY in 2 exciting days of training consisting of: Marksmanship, Manipulation, Movement, and Tactics with your Carbine.

The emphasis will be on building a strong fundamental foundation based on position, repeatable accuracy, contextual movement, and use of the environment to give you a tactical advantage in kinetic operations.

The ability to confidently manipulate the Patrol Rifle/Carbine is greatly lacking not only in Law Enforcement but also in Military units not serving SOF roles. Our formula is proven and will give the end user not only confidence to make accurate hits on demand, but to take a diagnostic approach in keeping the gun running under any circumstance.

We promise our experience will give you Performance on Demand when it really counts!

This course is a great 2024 SWAT School Preparation Course!!!
