

ARIDE ADVANCED ROADSIDE DRIVING ENFORCEMENT

Topics include:

- The concept of “drugs” in the context of DWI enforcement
- The role of eye examinations in disclosing the possibility of impairment
- Medical conditions and other situations that can produce similar signs of impairment
- Identification of the major categories of drugs
- The observable effects of each of the seven major categories of drugs
- The physiological effects likely to result from various combinations of drugs
- Appropriate procedures for dealing with drug-impaired or medically-impaired suspects
- Standardized Field Sobriety Test update
- Legal issues associated with impaired driving
- Pre- and post-arrest procedures

Note: This training will NOT qualify an officer to serve as a Drug Recognition Expert.
