A REVIEW OF HATE CRIMES

With the passage of Legislative Bill 90 in 1997, commonly referred to as the Hate Crime Bill, the Nebraska Crime Commission (NCC) developed a system to report hate crimes. The FBI has defined a hate crime as a “criminal offense against a person or property motivated in whole or in part by an offender’s bias against a race, religion, disability, sexual orientation, ethnicity, gender, or gender identity.” Nebraska law enforcement agencies voluntarily submit quarterly reports to the NCC which document the details of hate crimes that have been committed within the jurisdictions of those reporting agencies. Some of the details documented include: the type of crime committed, a general description of the location in which it occurred, and the type of bias or motivation of the offender.

In 2020, 140 law enforcement agencies participated in submitting hate crime data to the Crime Commission (90 all 12 months, 50 partial months). In total, there were 60 incidents reported by 17 agencies statewide that involved crimes motivated by hate or bias. In comparison, 2019 had 138 agencies participate in submitting hate crime data, reporting a total of 44 incidents from 21 agencies statewide, resulting in an overall increase of 36.4%.
