

# HIGH THREAT VEHICLE ENGAGEMENTS

88 Tactical's High Threat Vehicle Engagements™ 2-Day Law Enforcement Course is an intermediate to advanced course in responding to close range, high-threat incidents in, through and around vehicles, that is based on high-probability or high-risk real world incidents and the study of human survival behavior under duress.

Students will learn how to mitigate incidents not covered in conventional academy and in-service training and will build an intuitive understanding of the dynamics of fighting around vehicles and real world vehicle ballistics. Drills will incorporate: threat recognition; officer safety and readiness procedures that reduce the chance and effect of criminal assault; non-traditional shooting positions; dynamic maneuver out of and around vehicles; single and multiple officer live-fire drills; and force-on-force exercises.

REGISTRATION
