

*Homefront Protective Group Law Enforcement Training presents:*

## **Cellular Investigations and Device Location Mapping**

*Understanding the Importance of Cellular Device Evidence*

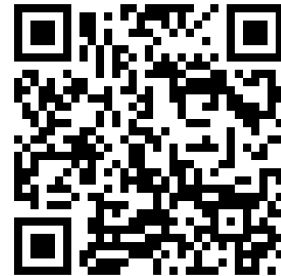

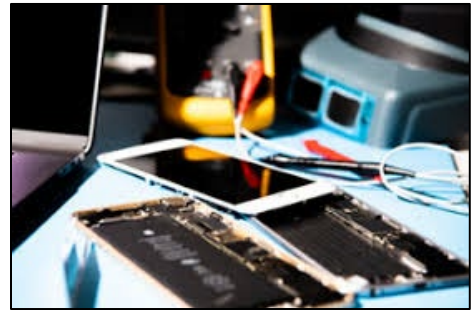

### **LIVE 4-HOUR ONLINE TRAINING**

**Everything and everyone are connected in today's world.** This class will introduce students to the different cellular devices that can be investigated to further investigations. We'll look at different types of data that can be acquired and analyzed to provide pattern of life and device location information.

Students will learn about devices that provide cellular data, the reports available from providers, legal demand requirements, and analysis of the data recovered. It will also introduce students to the different live and historical records available from telecommunication service providers. Students will be introduced to free tools and the process to assist with analyzing and mapping results. The instructor will define "pattern of life" and how that is used in investigations. Finally, students will learn best practices for preparing and presenting trial exhibits and testifying in court.

#### **Course Topics Include:**

- Devices that utilize cellular technology
- Cellular devices that provide location information
- Providers and the request process
- Legal demand
- Records available
- Historical records
- Live intercepts
- Location reports (live and historical)
- Analysis tools and methods
- Analyzing the results
- Preparation and testifying to trial exhibits

**REGISTRATION:** <https://homefrontprotect.com/Cellular040926>

## **INSTRUCTOR**

Detective **Steve Owens** recently retired from the Lancaster City (PA) Police Department after serving 25 years. Steve spent 18 years as a Detective in various assignments, finishing his career in the Violent Crimes Unit. He was assigned as a Task Force Officer with the FBI Violent Crime Task Force and earned several certifications in Wiretapping, Cellbrite Operator and Physical Analyzer, Cell Phone Data Extractions, and has extensive experience in Digital Imaging, Video Recovery, and is a court-recognized expert in Cellular Telephone Records Analysis and Mapping. Steve has conducted numerous investigations and training on Social Media Intelligence, Digital Investigations, and Open-Source Intelligence. Steve has conducted extensive research on the exploitation of Ubiquitous Technical Surveillance, instructing law enforcement officers and Intelligence Agents on its use by enemy actors. Steve is the lead investigator and trainer for Homefront Protective Group's Research and Development team for Social Media, Digital Investigations, Threats from Ubiquitous Technical Surveillance, and Related Issues.
