

## **Police Traffic Laser/RADAR Instructor**

The Nebraska Law Enforcement Training Center is hosting a Police Traffic Laser/RADAR Instructor Training Course taught by The Institute of Police Technology and Management. This combined course will improve your knowledge of both RADAR and Laser speed measurement devices and give you the instructional tools to present RADAR and Laser training programs to other members of law enforcement.

You will learn the different scientific principles behind these devices and their proper application within the overall speed enforcement program. In addition, we will cover the various aspects of equipment used such as testing and verification protocols, case law, health issues, and many other operational considerations.

Through practical exercises using a variety of different units, you will be exposed to the latest technology in the field. You will also take part in teaching exercises emphasizing the need for complete equipment familiarity on the operator's part.

### **Topics Include**

- Time, distance, and speed measurement
- Scientific principles of RADAR and Laser
- Operational considerations
- Case law and administrative rules
- Preparations for court presentation
- Theories of adult teaching and learning
- Four-step teaching process
- Practical exercises and written exams
- Classroom presentations

### **Course Dates**
