## **CONTEMPORARY TACTICAL STRATEGIES**

**“NOT A Typical CIT Type Training, But Instead A Tactical Approach Surrounding Use of Force Decision Making, Officer Survival, And Jeopardy Situations.”**

This class will equip the student with a solid understanding and tactical operational philosophy for responding to complicated situations involving the unconventional adversary, mentally ill, suicidal, and barricaded people.

Case law has recently been very clear on force intentionally applied to subjects with mental health issues compared to normal criminals, and issues of officer induced jeopardy. This course presents a wide range of tactical, decision making, and de-escalation training to achieve a positive outcome while reducing the number of “Lawful but Awful” shootings.

**HOSTED BY: Sarpy County Sheriff's Office**

8335 Platteview Rd. Papillion, NE 68046

**Use of Force  
Decision Making**

**“Helping”  
Situations That  
Lead to Liability**
