This dynamic and immersive training will focus on sovereign citizens and their rapidly increasing problematic contact with all forms of government, with a specific focus on interactions with law enforcement and criminal justice personnel. Basic awareness of this growing threat and how it will directly impact the daily duties and responsibilities of law enforcement and other government entities will be discussed at length. Attendees should expect a general “indoctrination” into the sovereign citizen movement to help further awareness, recognition and mitigation of this unconventional and bothersome problem.

Additionally, a significant portion of training will cover First Amendment Auditors, the Boogaloo Movement, III% and Militia ideology.

Topics Covered and Course Focus:

- Learn the fundamental principles of the sovereign citizen movement, including ideological beliefs, pillars, doctrines, tactics, and goals
- Identify possible sovereign citizens through language identification and document recognition
- Paper Terrorism through false liens and lawsuits
- Courtroom behavior
- Militia Ideology, Boogaloo Movement and III%
- Anti-government views pertaining to gun and land rights issues
- First Amendment Auditor goals, tactics and communication platforms
- Best practices for professional and safe encounters when encountering, interviewing, or investigating sovereign citizens and First Amendment Auditors

****NEW** All classes will include an update and overview on the impact of issues such as COVID-19, civil unrest, U.S. Capitol events, and the current posture of threat actors with anti-law enforcement beliefs.****
