PLEASE REVIEW THE FOLLOWING APPORTIONMENT FORMULA DICTATED BY STATUTE:

The county's percentage of inmate population relative to the total capacity of jails in the state of Nebraska. Each county will receive the percentage of grant dollars directly proportional to that county's percentage of jail inmates of the total jail inmate population in the state.

The formula is as follows:

The average daily population of the county jail/ Jail capacity of the state = Relative Percentage X Total funding amount (\$480,000) = Maximum funds available to the County

The current jail capacity of the state is 5,009.

Please input your county's jail population into the formula to determine the max amount of funds available to your county.

#### Instructions

1. **Information required to be included with the grant application submission:**
  - a. **Data to demonstrate that your average daily jail population has increased, pinpointing the contributing factors for the increase, as a result of the implementation of LB 605. Counties shall only include post-adjudication inmates who are serving sentences, or inmates serving custodial sanctions due to probation violations, when calculating average daily jail population.**
    - i. **Specifically, you must submit**
      1. **Your average daily jail population for FY 21/22. To calculate your average daily jail population, you can only count post-adjudicated inmates who are serving sentences, or individuals serving custodial sanctions due to probation violations. You may count inmates sentenced to your county jail serving out their sentence in a different county jail location.**
      2. **Your average daily jail population for the prior three fiscal years, meaning FY 18/19, FY 19/20, and FY 20/21.**
      3. **Any additional documentation you think will support a showing of an increase in average daily population.**
    - b. **A showing of the prioritization of the use of funds for programs (new or existing), services, and approaches that reduce jail populations and costs.**
    - c. **An annual submission electronically of the data required by rules and regs Title 74, Chapter 1.**
2. **Funds may NOT be used for:**
  - a. **Construction of secure detention facilities, secure treatment facilities, secure confinement facilities, or county jails**
  - b. **Capitol construction or the lease or acquisition of new facilities.**
3. **Funds will be apportioned to the counties as grants in accordance with the funding formula established that is based on the total number per county of individuals incarcerated in jails, and the total capacity of jails.**
4. **In filling out the grant application, please refer to Title 74, Chapter 1, for definitions to assist in calculating data for submission.**

**Apportionment Formula**

**Consider the Apportionment Formula:**

**Average Daily Population of the County Jail (1)/Jail Capacity of the State (2) = Relative Percentage X Total Funding Amount= Maximum Fund Available to the County**

**Definitions:**

**(1) The daily average population during the previous calendar year for post-adjudicated beds and local probationary beds**

**(2) Number of post-adjudicated beds and local probationary beds in county jails during the previous calendar year.**

**Please insert your county's average daily population into the formula to figure out the total funding available for your county.**

**Your County Average Daily Population/5009= Relative Percentage X \$480,000= Maximum Fund Available to Your County**

**Please provide the total maximum amount below:**
