CHAPTER 15 - NEW FACILITY DESIGN AND CONSTRUCTION	X			
15-004 Prior to any renovation or development of new construction plans where the estimated aggregate cost of the renovation or construction exceeded \$5,000, the governing body submitted a letter of intent specifying the required information.				
15-005-005.011 The Jail Standards Division must receive reasonable advance notice and allowed to participate in preliminary planning meetings. The required program statement was submitted to the Jail Standards Division.	X			
15-005.02-005.02C Copies of the required architectural design documents were submitted to the Jail Standards Division at the required times.	X			
15-005.03 Contracts were not let until the Jail Standards Board approved the final documents. No addenda, change orders or modifications which affected compliance with the standards were made without approval of the Jail Standards Division.	X			The jail Standards Board approved final construction plans for this facility on April 27, 2000.
15-006.01 Artificial lighting in all inmate living areas provides at least 20 foot candles of light and 50 foot candles in work or study areas measured three feet above the floor. Night lighting is provided which permits adequate visibility for supervision, but does not hinder restful sleep.	X			Artificial lighting was inspected and approved during the initial inspection of the jail's physical plant upon completion of construction. No changes have been made since that time.
15-006.02 All inmate living areas provide visual access to natural light.	X			
15-006.02A In new construction there is a window in each cell which provides at least 3 square feet of clear glazed area to the exterior or cells open into a dayroom with windows which provide visual access to a clear glazed area to the exterior that is at least the equivalent of the amount required for all of the cells served by the dayroom.	X			
15-006.02B In newly constructed dormitories with a capacity of 10 or less, there are windows which provide visual access to at least 10 square feet of clear glazed area to the exterior. In dormitories with a capacity of more than 10, the amount of clear glazed area is increased by at least 5 square feet for every 10 additional beds or fraction thereof.	X			
15-006.02D In renovated facilities, all living areas provide visual access to natural light. Windows that have been replaced as part of the renovation meet the natural light requirements for new construction.	X			
15-006.02E Windows in housing areas of higher than minimum security that are directly accessible to inmates are detention type which have a maximum of 5 inches clear opening between framing members. Glass and glazing materials and window framing have the proper security values for the area in which they are used. All window	X			Windows in housing areas are 3 feet by 4.5 inches, and meet the square footage requirements for each particular unit.
