CHAPTER 15 - NEW FACILITY DESIGN AND CONSTRUCTION	X			
15-004 Prior to any renovation or development of new construction plans where the estimated aggregate cost of the renovation or construction exceeded \$5,000, the governing body submitted a letter of intent specifying the required information.				
15-005-005.011 The Jail Standards Division must receive reasonable advance notice and allowed to participate in preliminary planning meetings. The required program statement was submitted to the Jail Standards Division.	X			
15-005.02-005.02C Copies of the required architectural design documents were submitted to the Jail Standards Division at the required times.	X			
15-005.03 Contracts were not let until the Jail Standards Board approved the final documents. No addenda, change orders or modifications which affected compliance with the standards were made without approval of the Jail Standards Division.	X			Final construction plans were approved by the Jail Standards Board during the July 21, 2006 meeting.
15-006.01 Artificial lighting in all inmate living areas provides at least 20 foot candles of light and 50 foot candles in work or study areas measured three feet above the floor. Night lighting is provided which permits adequate visibility for supervision, but does not hinder restful sleep.	X			
15-006.02 All inmate living areas provide visual access to natural light.	X			
15-006.02A In new construction there is a window in each cell which provides at least 3 square feet of clear glazed area to the exterior or cells open into a dayroom with windows which provide visual access to a clear glazed area to the exterior that is at least the equivalent of the amount required for all of the cells served by the dayroom.	X			The Jail Standards Board approved skylights in lieu of cell windows to meet the requirements of these standards.
15-006.02B In newly constructed dormitories with a capacity of 10 or less, there are windows which provide visual access to at least 10 square feet of clear glazed area to the exterior. In dormitories with a capacity of more than 10, the amount of clear glazed area is increased by at least 5 square feet for every 10 additional beds or fraction thereof.	X			
15-006.02D In renovated facilities, all living areas provide visual access to natural light. Windows that have been replaced as part of the renovation meet the natural light requirements for new construction.			X	
15-006.02E Windows in housing areas of higher than minimum security that are directly accessible to inmates are detention type which have a maximum of 5 inches clear opening between framing members. Glass and glazing materials and window framing have the proper security	X

values for the area in which they are used. All window framing in secure areas is properly anchored in reinforced walls.				
15-006.03 Sustained noise levels within inmate occupied areas do not average higher than 70 decibels.	X			
15-006.04 Heating and cooling systems provide a comfortable and healthful living and working environment with temperatures maintained between 65 and 80 degrees Fahrenheit.	X			
15-006.05 Ventilation systems insure circulation of fresh or purified air sufficient to draw off foul air odors. The facility has minimum of 10 cubic feet per minute interchange rate for each inmate for the jail's rated capacity.	X			
15-006.06 Sufficient parking for visitors and official vehicles is provided on the site or through the availability of city street parking or public access parking lots located in the vicinity of the site.	X			Available parking is more than adequate.
15-006.07 - 006.07B A public lobby or waiting area is provided which includes sufficient seating, toilets and drinking fountains. Public access to security and administrative work areas is restricted. All public areas of the facility are accessible to handicapped persons.	X			
15-006.08 Sufficient space is available for administrative and clerical personnel.	X			Staff training rooms are also provided.
15-006.09-006.09I A reception and release area which is adequate in size and properly equipped to insure the orderly and secure admission and release of inmates is provided within the security perimeter away from the public, but apart from other inmate areas. It includes the required components.	X			Nine holding cells and a "soft holding" waiting area are located in the intake portion of the building.
15-006.09I-006.09I2 Temporary holding cells are at least 50 square feet in size. If designed for multiple occupancy, they provide at least 25 square feet of floor space per inmate at rated capacity. They are equipped with sufficient benches for the cells rated capacity, a high security toilet, wash basin with hot and cold running water, and drinking fountain.	X			Two detoxification cells are located in the intake area and the adjacent pre-booking has security cells for short term holding.
15-006.09J-006.009J3 Detoxification cells are provided that are at least 50 square feet in size. If designed for multiple occupancy, they provide at least 25 square feet of floor space per inmate at rated capacity. They are equipped with a high security toilet, washbasin with hot and cold running water, drinking fountain, flushable floor drain and low benches. They are readily observable by staff.	X			
15-006.10 Space is available for routine medical examinations, emergency first-aid, emergency equipment storage, and secure medicine storage and dispensing.	X			The medical unit is well designed and includes housing for medical segregation of detainees.
15-006.11 The facility is designed to provide the required adequate separation of inmate classifications to be held in the jail	X			
15-006.12 Sufficient confidential interview rooms are available to accommodate the projected demand of professional	X

visitors. Interview rooms are large enough to accommodate 4 persons and are acoustically private.				
15-006.13 Where in-house food services are provided, the kitchen has adequate space for food preparation, disposal, clean up and food storage. There is a place for the secure storage of knives and other utensils.	X			The kitchen is well designed and has secure storage space for utensils and operates as a knifeless kitchen.
15-006.14 Newly constructed detention facilities have at least one secure janitor's closet containing a mop sink and sufficient space for storage of cleaning supplies and equipment within the security perimeter. Renovated or holding facilities have a janitor's closet that is conveniently located.	X			
15-006.15 In jails where in-house laundry services is provided there is sufficient space for heavy-duty or commercial type washer(s), dryer(s), soiled clothing storage, clean laundry storage and laundry supply storage.	X			
15-006.16-006.16B There are one or more staff posts located in close proximity of inmate housing areas. At least one staff post is provided on each floor of inmate housing. In newly constructed detention facilities, one staff post is a control center. The control center is designed to be secure from unauthorized access. Entrances to the security perimeter is controlled from the control center. (15-006.16 through 15-006.16B)	X			Master control is the primary fixed staff post with surveillance capabilities of most jail areas. Booking and a housing unit post also can function as fixed staff posts in addition to the housing units that are managed by direct supervision.
15-006.17 Closed circuit television is not used to monitor the interior of cell space.	X			
15-006.18 In newly constructed jail facilities, an emergency power source is available to provide electricity for entrance lighting, exit signs, circulation corridors, fire alarm, electrically operated locks and emergency ventilation equipment.	X			
15-006.19 Each housing unit provides access to at least 1 shower for every 12 inmates or fraction thereof. Showers provide hot and cold or tempered running water.	X			
15-006.20 Inmate's rights to privacy from unauthorized or degrading observation is protected without compromising the security and control of the facility.	X			
15-006.21 Light, soft-toned washable paint is predominantly used for untiled walls and metal work.	X			
15-006.22 All locks and detention hardware have the proper security value for the areas in which they are used. Padlocks are not used in the place of a security lock on any door or window.	X			
HOLDING FACILITIES			X	
15-007.01-007.03 All cells are designed for single occupancy and provide at least 50 square feet of floor space. The cells have a minimum width of at least 6 feet and a minimum floor to ceiling height of 8 feet. The cells are equipped with at least a bunk, toilet, wash basin with hot and cold running

requirement of Chapter 7-003. At least one exercise area of not less than 600 square feet is provided.				

ADDITIONAL COMMENTS

10-003.06 This facility was recently found to be in full compliance with PREA Standards set forth by the PREA Resource Center and the Department of Justice. The audit process in its entirety was eight months total; including pre-audit activity, the audit itself and corrective action. This PREA compliance status is the culmination of years of hard work by Sgt. Rojewski and Officer Richardson and they should be commended. The PREA compliance status allows this facility to house Federal Detainees and Nebraska Department of Correctional Services inmates.
