Nebraska Uniform Crime Reporting Program

INTRODUCTION

This annual report presents data on crime and arrests reported by law enforcement agencies through the Nebraska Uniform Crime Reporting (UCR) Program. During 2001, 160 law enforcement agencies submitted monthly UCR's to the Nebraska Commission on Law Enforcement and Criminal Justice, hereafter referred to as the Commission, which administers the Nebraska UCR Program. The Nebraska UCR Program submits the data to the National UCR Program which is administered by the Federal Bureau of Investigation.

The National UCR Program - Historical Background*

Recognizing a need for national crime statistics, the International Association of Chiefs of Police (IACP) formed the Committee on Uniform Crime Records in the 1920's to develop a system of uniform police statistics. Establishing offenses known to law enforcement as the appropriate measure, the Committee evaluated various crimes on the basis of their seriousness, frequency of occurrence, pervasiveness in all geographic areas of the country, and likelihood of being reported to law enforcement. After studying state criminal codes and making an evaluation of the record keeping practices in use, the Committee in 1929 completed a plan for crime reporting which became the foundation of the UCR Program.

Seven offenses were chosen to serve as an index for gauging fluctuations in the overall volume and rate of crime. Known collectively as the Crime Index, these offenses included the violent crimes of murder and nonnegligent manslaughter, forcible rape, robbery, aggravated assault and the property crimes of burglary, larceny-theft, and motor vehicle theft. By congressional mandate, arson was added as the eighth Index offense in 1979.

During the early planning of the program, it was recognized that the differences among criminal codes precluded a mere aggregation of state statistics to arrive at a national total. Further, because of the variances in punishment for the same offenses in different state codes, no distinction between felony and misdemeanor crimes was possible. To avoid these problems and provide nationwide uniformity in crime reporting, standardized offense definitions by which law enforcement agencies were to submit data, without regard for local statutes, were formulated.

National Incident-Based Reporting System (NIBRS) - Redesigned UCR Program*

Throughout the years, the UCR Program has remained virtually unchanged in terms of data collected and disseminated. Recognizing the need for improved statistics, law enforcement called for a thorough evaluative study that would modernize the UCR Program. The FBI fully concurred with the need for an updated program and lent its complete support, formulating an examination of the historical evolution of the Program (1982). The second phase involved an examination of potential futures for UCR and concluded with a set of recommended changes set forth in the draft "Blueprint

* Crime in the U.S., 1994, FBI, Washington, D.C.

for the Future of the Uniform Crime Reporting Program” (1985). At the eighth National UCR Conference held in 1985, the phase two recommendations were presented and the overall concept for the revised Program was unanimously approved. One of the first steps taken by the FBI to implement the redesigned UCR was the development of new offense definitions and data elements. A pilot project was conducted during 1987 in South Carolina. In 1988, the FBI presented a draft of reporting guidelines to law enforcement executives at a national conference. At the conference, there was an endorsement that a new, incident-based reporting system be established. The National Incident-Based Reporting System (NIBRS) will collect data on each single incident and arrest within 22 crime categories. For each offense known to police within these categories, incident, victim, property, offender, and arrestee information will be gathered when available. The goal of the redesign is to modernize crime information by collecting data presently maintained in law enforcement records; the enhanced UCR Program is, therefore, a byproduct of current records systems. The FBI was able to accept NIBRS data as of January 1989 and twenty-four states, including Nebraska, are now certified for submission of NIBRS data.

The Nebraska UCR Program

During the 1970's, the FBI actively assisted individual states in the development of state UCR Programs which would be compatible with the national program. The Nebraska UCR Program became operational on January 1, 1971. Commencing on that date, law enforcement agencies in Nebraska began submitting UCR's to one central agency in Nebraska, the Commission, and the reports are in turn forwarded to the National Program after review and correction. The State Patrol, all sheriffs' departments, and police departments of municipalities of 1,500 population and over are required to submit UCR's by the seventh day after the end of the month. In 1982, the Nebraska Program became an "incident-based" reporting system. That is, crimes were reported by individual incident. This change in reporting has laid the groundwork for conversion to the new Nebraska Incident-Based Reporting System (NIBRS), which will be compatible with the National Incident-Based Reporting System. Law enforcement agencies may convert to NIBRS as they acquire the computer resources to submit NIBRS data. The following agencies submitted NIBRS data to the Commission during 2002: Adams Co. S.O., Buffalo Co. S.O., Cuming Co. S.O., Custer Co. S.O., Dawes Co. S.O., Frontier Co. S.O., Gage Co. S.O., Harlan Co. S.O., Hamilton Co. S.O., Jefferson Co. S.O., Kearney Co. S.O., Madison Co. S.O., Otoe Co. S.O., Phelps Co. S.O., Platte Co. S.O., Sarpy Co. S.O., Seward Co. S.O., Sherman Co. S.O., Washington Co. S.O., York Co. S.O., Beatrice P.D., Bellevue P.D., Blair P.D., Broken Bow P.D., Central City P.D., Chadron P.D., Columbus P.D., Fairbury P.D., Gering P.D., Gordon P.D., Hastings P.D., Holdrege P.D., Kearney P.D., LaVista P.D., Minatare P.D., Minden P.D., Nebraska City P.D., Norfolk P.D., Papillion P.D., Plattsmouth P.D., Ralston P.D., Schuyler P.D., Seward P.D., Tecumseh P.D., Waterloo P.D., and Wymore P.D.

Crime Index

The extent, fluctuation and distribution of crime in the state is measured by the crime index. The crime index is composed of the following offenses: murder, nonnegligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, and arson. Many categories of crime are not of sufficient importance to be included in the index; some serious crimes, such as kidnaping, do not occur with enough regularity to be meaningful in the index. With these considerations in mind, the above offenses were selected as a group to serve as a measure of crime.

Clearances

For UCR purposes, an offense can be cleared by arrest or by exceptional means. An offense can be cleared by arrest when the offender is identified, there is enough evidence to charge him and he is actually taken into custody. The arrest of one person can clear several offenses and several persons may clear one offense. When some element beyond police control precludes formal charges against the offender, such as the victim's refusal to prosecute or death of the offender, an offense can be cleared by exceptional means.

Crime Rate

Crime rates relate the incidence of crime to population. Estimates of current population are used in computing crime rates. Crime rates are more refined indicators for comparative purposes than are volume figures. To compute a crime rate per 100,000 population, first divide the population of the area by 100,000 and then divide the crime index by the resulting figure. At various times throughout this report a rate per 1,000 population is used to be more meaningful for the state.

Crime Factors

Statistics gathered under the UCR Program are law enforcement statistics. The agencies report the offense and arrest data according to the standard offense classifications and not according to state statutes or local ordinances. Offenses are related to municipality and county in which they occur, rather than to the agency which may investigate, arrest or otherwise dispose of the case. The clearance is attributed to the municipality or county in which the offense occurred, even though the arresting agency may not be the department originally reporting the offense.

The factors which influence crime rates are dependent upon many characteristics of the community, and, therefore, when attempting to interpret the crime statistics presented herein, one should be aware of the social structure and the factors that lead to or cause criminal behavior.

Awareness of the presence of certain crime factors, which may influence the resulting volume and type of statistics presented, is necessary if fair and equitable conclusions are to be drawn. These crime influencing factors are present, to some degree, in every community and their presence affects, in varying degrees, the crime experience of that community. Attempts at comparison of crime figures between communities should not be made without first considering the individual factors present in each community. Below are some of the conditions which will by type and volume affect the crime that occurs from place to place:

- Population density and degree of urbanization.

- Variations in composition of the population, particularly youth concentration.

- Stability of population with respect to residents' mobility, commuting patterns, and transient factors.

- Modes of transportation and highway system.

- Economic conditions, including median income, poverty level, and job availability.

- Cultural factors and educational, recreational, and religious characteristics.

- Family conditions with respect to divorce and family cohesiveness.

- Climate.

Effective strength of law enforcement agencies.

Administrative and investigative emphases of law enforcement.

Policies of other components of the criminal justice system (i.e., prosecutorial, judicial, correctional, and probational).

Citizens' attitudes towards crime.

Crime reporting practices of the citizenry.

Caution should always be used when using the crime statistics presented herein, however, it should also be kept in mind that the data presented is the most accurate currently available. The law enforcement personnel who provide the data are to be commended for their efforts to provide accurate data. Without their sincere cooperation, this publication would not be possible. Crime is a social problem and therefore, should be a concern of the entire community.

DEFINITIONS OF OFFENSES

Uniformity of reporting depends upon the proper classification of offenses by the law enforcement agencies.

It must be emphasized that the following definitions are not meant to be legal definitions as they are written in the Nebraska Penal Code. The purpose of these classifications is to establish a uniform national system for classifying similar offenses even though their legal definitions may vary considerably from state to state.

Part I Offenses (Offense and arrest data are collected for Part I Offenses)

Criminal Homicide - Murder and Nonnegligent Manslaughter - the willful (nonnegligent) killing of one human being by another. Death by Negligence - the killing of another person through gross negligence.

Forcible Rape - the carnal knowledge of a female forcibly and against her will. Assaults or attempts to commit rape by force or threat of force are also included; however, statutory rape (without force) and other sex offenses are excluded.

Robbery - the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

Aggravated Assault - an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed.

Burglary - the unlawful entry of a structure to commit a felony or a theft. The use of force to gain entry is not required to classify an offense as burglary.

Larceny-Theft - the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. This category does not include

embezzlement, confidence games, forgery, and worthless checks.

Motor Vehicle Theft - the theft or attempted theft of a motor vehicle.

Arson - any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

Part II Offenses (Offense and arrest data are collected for Simple Assault while only arrest data are collected for the remaining Part II Offenses)

Simple Assault - any assault which does not involve the use of a firearm, knife, cutting instrument, or other dangerous weapon and in which there was no serious or aggravated injury to the victim.

Forgery and Counterfeiting - all offenses dealing with the making, altering, uttering, or possessing with intent to defraud anything false in the semblance of that which is true.

Fraud - fraudulent conversion and obtaining money or property by false pretense. Includes bad checks, confidence games, etc.

Embezzlement - the misappropriation or misapplication of money or property entrusted to one's care, custody or control.

Stolen Property - all offenses of buying, receiving, possessing, or concealing stolen property as well as all attempts to commit any of these offenses.

Vandalism / Destruction of Property - all willful or malicious destruction, injury, disfigurement or defacement of any public or private property, real or personal, without the consent of the owner or person having custody or control by cutting, tearing, breaking, marking, painting, drawing, covering with filth or any other such means as may be specified by law or ordinance.

Weapons - includes violations of weapons laws such as manufacture, sale or possession of deadly weapons; carrying deadly weapons; furnishing deadly weapons to minors; aliens possessing deadly weapons; using or manufacturing silencers; and all attempts to commit any of the above offenses.

Prostitution and Commercialized Vice - includes the sex offenses of a commercialized nature such as prostitution; keeping a bawdy house, disorderly house or house of ill repute; pandering, procuring, transporting or detaining women for immoral purposes, etc., and all attempts to commit any of the above.

Sex Offenses - includes all sex offenses other than forcible rape, prostitution and commercialized vice. This encompasses offenses against chastity, common decency,

morals and the like such as adultery and fornication, buggery, incest, indecent exposure, sodomy, statutory rape (no force) and all attempts to commit any of the above.

Drug Abuse Violations - statistics for these arrests are requested on the basis of the narcotics used. This includes all arrests for the violation of state and local laws, specifically those relating to the unlawful possession, sale, use, growing, manufacturing and making of narcotic drugs. Four divisions of narcotic drugs are recognized. These are:

- (a) Opium and cocaine and their derivatives (morphine, heroin, codeine),
- (b) Marijuana,
- (c) Synthetic narcotics which can cause true addiction (demerol, methadones) and
- (d) Other dangerous non-narcotic drugs (barbiturates, benzedrine).

Gambling - includes all charges relating to promoting, permitting or engaging in illegal gambling. This classification is broken into three divisions:

- (a) bookmaking (horse and sport book)
- (b) numbers and lottery and
- (c) all other gambling.

Offenses Against Family and Children - includes all charges of nonsupport, neglect or abuse of family and children such as desertion, abandonment or nonsupport, neglect or abuse of child, or nonpayment of alimony.

Driving Under the Influence - limited to driving or operating any vehicle while drunk or under the influence of liquor or narcotic drugs.

Liquor Laws - with the exception of drunkenness and driving under the influence, all state or local liquor law violations are placed in this class. Federal violations are not included. Include manufacturing, selling, transporting, furnishing or possessing intoxicating liquor, including minors in possession, maintaining unlawful drinking places, bootlegging, operating a still, furnishing liquor to a minor, using a vehicle for illegal transportation of liquor, and drinking on a train or public conveyance.

Disorderly Conduct - Disturbing the Peace - a breach of the peace (unlawful assembly, disturbing the peace, disturbing meetings, blasphemy, profanity, obscene language, refusing to assist an officer, etc.)

All Other Offenses - includes all violations of state and local laws not otherwise classified.

Curfew and Loitering Law Violations - (Juveniles) all arrests made for violations of local curfew or loitering ordinances.

Runaways - (Juveniles) limited to juveniles taken into custody who have run away from the reporting jurisdiction.

CRIME INDEX OFFENSES

The index offenses include the violent crimes of murder and nonnegligent manslaughter, forcible rape, robbery, aggravated assault, and the property crimes of burglary, larceny-theft, motor vehicle theft, and arson. During 2002, 154 law enforcement agencies submitted Uniform Crime Reports on a monthly basis. These reports provided information on offenses that were reported or known to law enforcement, as well as information on persons arrested or cited for criminal violations and offenses cleared by arrest or by exceptional means.

Volume

A total of 73,226 index offenses were reported or known to law enforcement agencies in 2002. The violent crimes of murder, manslaughter, forcible rape, robbery, and felony assault accounted for 7.5 percent of the total index offenses. The property crimes of burglary, larceny-theft, motor vehicle theft, and arson accounted for 92.5 percent of the total offenses.

Larceny-theft was the most frequently reported crime, accounting for 69.4 percent of the total crimes reported.

Crime Rates

In 2002, the rate of crimes per 1,000 population was 42.3, based upon an estimated population of 1,729,180. The crime rate for violent crimes was 3.2 crimes per 1,000 population. There were 39.2 property crimes per 1,000 population.

Clearances and Arrests

A total of 17,045 index offenses were reported cleared during 2002, a clearance rate of 23.3 percent. Murder, manslaughter had the highest clearance rate, 81.3 percent. Violent crimes had a clearance rate of 60.7 percent and crimes against property had a clearance rate of 20.3 percent.

During 2002, a total of 12,463 persons were arrested for index offenses. Juvenile arrests accounted for 36 percent of the arrests for index offenses. The age group of 13-14 accounted for the largest percentage of persons arrested for index offenses, 8.5 percent.

MURDER, MANSLAUGHTER

Murder and nonnegligent manslaughter are defined as the willful (nonnegligent) killing of one human being by another. Not included in this definition are deaths caused by negligence, suicide, or accidental deaths. Attempts to commit murder are classified as aggravated assault.

Volume and Rate

During 2002, a total of 48 murder, manslaughters were reported by law enforcement agencies in Nebraska. Murder, manslaughter accounted for 0.9 percent of all violent crimes and one-tenth of one percent of all index offenses. In 2002, there were .03 murders per 1,000 population. Thirty-nine murder, manslaughters were cleared in 2002, a clearance rate of 81.3 percent.

Murder, Manslaughter Analysis

Law enforcement agencies are requested to provide additional information regarding the victim, the offender, the type of weapon used, and the relationship of the victim to the offender(s). The Omaha Police Department was only able to provide information on the victim's age, sex, and race.

The victim data revealed that 63 percent of the victims were male while 37 percent were female. Victims in the age group of 18-24 and 30-39 both accounted for 26.7 percent of the total victims. Victims age 17 and under accounted for 10 percent as did victims age 60 and above. An analysis by race revealed that 67 percent were White, 28 percent were Black, and 5 percent were of other races.

Of the known offenders, outside of the City of Omaha, there were 35.5 percent in the age group of 18 to 24. The next highest age group was 39 to 39 which accounted for 25.8 percent of the total known offenders. Male offenders accounted for 87 percent of the total and females accounted for 13 percent. 77 percent of the offenders were White.

Outside of the City of Omaha, most murders, 81 percent, were committed either by a relative or an acquaintance of the victim. A further breakdown indicated that 31% were committed by a relative; 50% were committed by an acquaintance; and in 19% of the incidents the offender could not be determined and, therefore, the relationship could not be determined.

HATE CRIMES

Legislative Bill 90, commonly referred to as the hate crime bill, was passed and signed by the Governor in 1997. LB 90 directed the Commission to establish a repository for the collection and analysis of information regarding criminal offenses committed against individuals or groups or their property because of their race, color, religion, ancestry, national origin, gender, sexual orientation, age, or disability. The criminal offenses are to include: manslaughter; assault in the first, second, or third degree; terroristic threats; stalking; kidnaping; false imprisonment in the first or second degree; sexual assault in the first, second, or third degree; arson in the first, second, or third degree; criminal mischief; and criminal trespass in the first or second degree.

The federal Hate Crime Statistics Act of 1990 required the United States Attorney General to collect data about crimes that manifest evidence of prejudice based on race, religion, sexual-orientation, or ethnicity. Physical and mental disabilities were added in 1994. The crimes included: murder, non-negligent manslaughter, forcible rape, aggravated assault, simple assault, intimidation, arson, destruction, damage or vandalism of property. The Federal Bureau of Investigation (FBI) collects hate crime data through the UCR Program.

The Commission developed a system of collecting data which would meet the requirements of both LB 90 and the federal system of hate crime reporting. Law enforcement agencies are to submit quarterly reports on hate crimes identifying the type of crime committed, a general description of the location, and the type of bias motivation. During 2002, 104 agencies submitted at least one quarterly report and 76 of those reported all four quarters.

ARREST DATA

Under the Uniform Crime Reporting Program, an arrest is counted each time a person is taken into custody, summoned, notified, or cited. When a person under the age of 18 commits an offense and the circumstances are such that if the offender were an adult an arrest would be made, the juvenile is counted as an arrest by the reporting agency.

For reporting purposes, one arrest is counted each time a person is taken into custody, regardless of the number of charges placed against him. If an individual is arrested more than once during the year, an arrest is counted each time. When several persons are arrested in connection with the same offense, each is counted as an arrest.

Volume and Rate

Law enforcement agencies in Nebraska reported 97,576 arrests in 2002. There were 56.4 arrests per 1,000 population in 2002 as compared to 57.5 arrests per 1,000 population in 2001.

Arrests for Part I Offenses accounted for 13 percent of the total arrests. Of the arrests for Part I Offenses, larceny-theft accounted for the greatest portion, 75 percent. The greatest percentage of arrests for Part II Offenses (excluding All Other Offenses) was Liquor Law Violations, 16 percent.

During 2002, there were 1,387 arrests for crimes of violence (murder, manslaughter, forcible rape, robbery, and aggravated assault) which accounted for 11 percent of all arrests for Part I Offenses and one percent of the total arrests. There were 11,076 arrests for crimes against property (burglary, larceny-theft, motor vehicle theft, and arson) which accounted for 89 percent of all arrests for Part I Offenses and 11 percent of the total arrests.

Arrests for Part I Offenses decreased 5 percent from 2001. Arrests for Part II Offenses experienced an increase of one percent from 2001.

Arrests by Age

The number of persons under the age of 18 (juveniles) arrested during 2002 decreased 4 percent from 2001. The arrests of persons age 18 and over (adults) increased one percent.

The arrest of persons under the age of 25 accounted for the following percentages of the total arrests for each index offense: murder, manslaughter - 52 percent; forcible rape - 38 percent; robbery - 69 percent; aggravated assault - 43 percent; burglary - 71 percent; larceny-theft - 66 percent; motor vehicle theft - 70 percent; and arson - 79 percent. Of those persons under the age of 25 arrested for index offenses, persons under the age of 18 accounted for 56 percent.

Persons under the age of 18 were most often arrested for Larceny-Theft, while adults were most often arrested for Driving Under the Influence, Liquor Law Violations, and All Other Offenses.

Arrests by Sex

In 2002, males accounted for 75 percent of all arrests. Males accounted for 68 percent of arrests for Part I Offenses and 76 percent of arrests for Part II Offenses. Total male arrests increased 2 percent from 2001 and female arrests increased one percent.

Liquor Law Violations was the crime for which females were most often arrested. Males were most often arrested for Driving Under the Influence.

Arrests by Race

An analysis of total arrests by race for 2002 indicated 80 percent were White, 17 percent were Black, 3 percent were American Indian/Alaskan Native, and less than one percent were Asian/Pacific Islander.

Race distribution figures for the Part I Offenses revealed that 73 percent were White, 24 percent were Black, 4 percent were Indian/Alaskan Native and less than one percent were Asian/Pacific Islander. Race figures for Part II Offenses revealed that 81 percent were White, 16 percent were Black, 2 percent were Indian/Alaskan Native and less than one percent were Asian/Pacific Islander.

An analysis of arrests by race for crimes of violence (murder, manslaughter, forcible rape, robbery and felony assault) revealed that 63 percent were White, 32 percent were Black, 5 percent were American Indian/Alaskan Native, and less than one percent were Asian/Pacific Islander.

Race figures for crimes against property (burglary, larceny-theft, motor vehicle theft and arson) revealed that 74 percent were White, 23 percent were Black, 3 percent were Indian/Alaskan Native and less than one percent were Asian/Pacific Islander.
